

Roulette

Roulette is one of the oldest games played in the casino. The dealer spins the ball in one direction and the wheel in the opposite direction. The wheel has 37 numbers ranging from 0 to 36. The object of the game is to guess where the ball will land. The dealer will then place a marker on the winning number, remove the losing bets and pay the winning bets as follows:

35 to 1 for a "Straight Up" or bet covering one number

17 to 1 for a "Split" or bet that covers two numbers

11 to 1 for a "Street" or bet that covers three numbers

8 to 1 for a "Corner" or bet that covers four numbers

5 to 1 for a "Six Line" or bet that covers six numbers

2 to 1 for a Column that covers twelve numbers

2 to 1 for a Dozen that covers twelve numbers

Even money is paid for Low (1-18), High (19-36), Odd, Even, Red & Black, which are bets that cover eighteen numbers.
